

Please do not let LPFM stations take my FM translator service - K-LOVE - off the air. It is the only station I and a lot of others listen to. Klove radio is encouraging and can be listened to by all family members. I have not listened to any other station for years. Our community would be lost without our radio station. Klove is in the public interest because it is uplifting instead of degrading or ugly or something I need to turn off because my children are listening PLEASE do not let the LPFM stations overrule something so wonderful as KLOVE radio. Thank you.
